UI/UX Designer (cum Feature Owner)

The Gioi Di Dong (MWG) - TGDD, DMX, TopZone

2026 – Now

- Owned end-to-end UI/UX for pre-purchase journey (Web & Mobile): research, site maps, logic flows, high-fidelity mockups ready for engineering handoff.
- Analyzed PM requirements and transformed them into clear user flows, wireframes, and design solutions; iterated rapidly based on feedback throughout research, validation, and testing.
- Collaborated with management to define product direction, objectives, and priorities, ensuring design decisions aligned with business goals.
- Analyzed user behavior, leading to UX improvements that increased engagement by **15%** and reduced bounce rate by **10%**.
- Used AI tools (Claude, Codex, ChatGPT) to built and maintained **Design Systems** for TGDD & DMX, leveraging AI to generate Storybook prototypes and reduce stakeholder review preparation **from 3 days to 1 day**.
- Wrote PRD docs, communicating design rationale to PMs and engineers.

UI/UX Designer

Softworld VietNam Ltd

2025 - 2026

- Created graphic/visual assets (iconography, illustration) for consistent UI.
- Designed touchscreen for interactive service robots deployed in banking and restaurant fields.
- Conducted UX research on personas and customer journeys — identified pain points, structured flows and edge cases.
- Created visual content for landing pages/campaigns with Marketing, Product (BA, QC), remote dev team.
- Worked with the development team fully remote, 100% online collaboration
- Created scalable design systems for multiple product lines, supporting consistency and reuse.
- Participated in client meetings to discuss and align on design solutions.

UI/UX Designer

LIVEN Technology (VDES, Yourweddingplanner, Unlock, Marry)

2023 - 2025

- Designed web dashboards to support consistent UI development across apps.
- Collaborated with the Marketing team to create creative, impactful content for social media, landing pages, & event campaigns.
- Delivered branding assets including internal banners, logo systems for brand chains, and executive name cards.
- Designed CRM interfaces to optimize internal operations and improve workflow efficiency for businesses.
- Participated in product development by designing UI/UX for web and mobile apps, especially in tech-related platforms.
- Applied responsive design techniques and accessibility best practices to create inclusive user experiences.

Visual Designer

LIVEN Technology (VDES, Yourweddingplanner, Unlock, Marry)

2021 - 2025

- Created promotional banners with layout and color schemes tailored to campaign messages
- Delivered clean and consistent with brand identity visuals for multiple industries including F&B, Fashion, Wellness, Healthcare, Hospitality & Resort...

Education

- FPT Arena Multimedia (FPT)
- Comprehensive User Interface Design Course (Mirr Design)
- UX Foundation Course (Telos Academy)
- HCMC University of Technology and Education(HCMUTE)
